

Changes to Argus European products report & data effective 22 May 2006

Argus is introducing four new 1.5% Sulphur bunker fuel oil assessments, for 180cst and 380cst in both Antwerp and Rotterdam. These will be in addition to the existing 3.5% Sulphur bunker assessments for these markets.

This means Argus is introducing the following new codes to the European Products data file (dlp) effective 22 may 2006
