

Changes to Argus US Crude data section effective immediately (30 June 2006)

Please note that Argus is no longer calculating an outright price equivalent for WTI P-Plus, alongside the termination of Koch's WTI posting from 30 June. Assessments for P-Plus on a differential basis have been maintained, reflecting the way this market actually trades.

The effect of this is to stop the following assessments, the last data posted was 30 June 2006
