

Changes to Argus Coal Daily International effective 10 September 2007

Argus is introducing a "delivered cost column" into the Asia-Pacific freight table on P3 of the Argus Coal Daily International report. This is to clarify the differences between delivery cost, delivered cost and landed costs in this table. These are defined as follows.

Landed cost = Argus freight assessment plus cost of coal.

Delivery cost = Argus freight assessment plus demurrage delays at load port plus bunker costs for the specific voyage.

Delivered cost = Argus delivery cost plus cost of coal.

The data codes for these new series, which will appear in the DCI data modules, are below:-
