

Changes to Argus Air Daily data and report effective 1st January 2008

Argus is introducing a new assessment to the Air Daily report and data feed effective 1st January 2008.

The new assessment is RGGI US allowance year; RGGI stands for Regional Greenhouse Gas Initiative. This is an agreement between the ten states in the north east of the US to develop a regional GHG market aimed at capping CO2 emissions from 2009.
