Changes to G-code time stamps

Argus has reviewed the legacy data feed time stamp labels for the Asia/Singapore sourced Crude data feeds. The time stamps for these have changed in the Argus Methodology but have not been applied to the legacy (g-code) data feed until now. These changes only apply to legacy Gcode data files, the CSV data series are labelled as time stamp "Singapore Close" with the precise details in the Argus Methodology. These time stamps are Singapore local time.
