

Changes to Argus Crude effective 9 February 2009

Data coding correction

Some existing Dubai swaps data series in CSV format have been assigned the incorrect price type labels since these series started. These will be switched to the correct type to avoid future confusion. The change over date from old to new is 9 February 2009, Argus data history will be changed to use the new price type throughout its database, the old price types will not appear in the documentation for these series thereafter.

The PA-codes affected in the DMC CSV file are:

PA-code	Time stamp	Old Price type	New Price type	Continuous forward	Description	Old Differential basis	New Differential basis	Start date	End date
PA0004317	8	7	2	1	Dubai swaps month	Dubai	-	03-Jul-2006
