

Changes to Argus European Electricity data files effective 1 July 2009

To reduce duplicate publication of data, Argus is removing reference and comparison prices from the European Electricity data module. Only data that is created for the Argus European Electricity publication will remain in its associated data file. This minimises potential discrepancies across Argus data files.

This change affects the data file only, not the report

The following series will no longer appear in the DEL csv data files from 1 July 2009:-
