<u>Changes to Argus European Electricity report and data feed effective 3rd August 2009</u>

In response to growing liquidity Argus is expanding its coverage of the Polish OTC market with new assessments for weekly contracts and the expansion of peak load contract assessments. From Monday 3 August 2009 Argus will add assessments for week+2 and week+3 base load and peak load contracts. In addition, equivalent peak load assessments will be added alongside all existing base load assessments, where peak load assessments are not already provided.
