

Changes to Argus Crude report and data feed effective 11 October 2009

In addition to Canadian retrospective postings announced for 10 October 2009, Argus will introduce Canadian Condensate retrospective series. These series will be published around the 10th day of every month in order to include all revisions, some of which tend to take place during the first few days of the following month. So for example, a table containing all revised numbers for the month of September will be published on or around 10 October.

The following changes will be applied to CSV datafeed of DHC module:

G-code	PA-code	Time stamp	Price type	Continuous forward	Description	Differential basis	Start date	Unit	Category
GCDH7020A	PA0007020	2	17	1	Canada Condensate retrospective Postings Avg month	-	01-Sep-2009	USD/bl	->Crude->North America->Canada
