

Changes to Argus European products report and data effective 4 January 2010

Argus is discontinuing the Gasoline 95R 10ppm sulphur barge ARA assessment from the end of 2009. In order to dispel a few concerns that some clients have, due to exposure in clearing outstanding positions during the first quarter 2010. Argus will introduce for this 3 month period only, a midpoint differential to Argus Euro-bob oxy gasoline that clients can use.
