

## **Changes to Argus European Natural gas data file effective immediately**

In July 2009 Argus removed all non-natural gas prices from the Natural gas data feed except for basic spark spreads. In this exercise two series were inadvertently left in place. These have been removed with immediate effect. The emissions adjusted spark spread (PA0004346) should never have been in this data module, this value is not in the published report.

The following were removed from the DNG data CSV module
