

## Changes to Argus Biofuels effective 1 September 2010

Argus is adding two new series to the Argus Biofuels. A soybean oil Argentina differential to CBOT soybean oil settle expressed as a differential low and differential high. Also a Rapeseed oil fob Dutch Mill, 3 month spread price.

For the 3 month spread Argus is introducing a new timing type, these series will be "rsoquarter", where the forward period will represent the following:-

- 1 = Feb/Mar/Apr
- 2 = May/Jun/Jul
- 3 = Aug/Sep/Oct
- 4 = Nov/Dec/Jan

The year will be the year of the first month of the spread, so Nov/Dec/Jan will have the year of the November month until it rolls to the new year value when Feb/Mar/Apr 3 month spread is assessed. This timing applies to the Rapeseed oil fob Dutch Mill series only.
