

## Changes to Argus Russian Crude export report and data feed effective 11 February 2011

Argus is substituting existing weekly Belorussia Urals assessments in the Argus Russian Crude export report, with new monthly retrospective series. Data will be published once a month for the previous calendar month delivery. Forward period field value will reflect the month that published figures will be applicable to. This change is due to recent changes in the pricing between Russia and Belorussia.

The following changes will be applied to DCISCR data module.

G-code	PA-code	Time stamp	Price type	Continuous forward	Description	Differential basis	Start date	End date	Unit	Category	Frequency
NOCODE	PA0003547	0	1	0	Urals Belorussia fit Mozyr USD/bl	North Sea Dated	01-Jan-2001	10-Feb-2011	USD/bl	->Crude->Russia-Caspian->Urals	Weekly
