

## Change to Argus US Products effective 10 August 2012

The following data series was incorrectly configured to have a null differential basis in the Argus data system. The basis was listed correctly in the announcement 26 March 2012 as Nymex Heating Oil but set up as null ("-"). Argus has updated the series to correctly have Nymex Heating Oil as the basis. Whilst fixing this the series has also been renamed to conform to the normal Argus style for B100 biodiesel series.

The following PA-codes in the DHP files in the DUSPR folder of <ftp.argusmedia.com> are affected

<b>PA code</b>	<b>Old description</b>	<b>New description</b>
PA0010073	New York Harbor SME B100 biodiesel	Biodiesel SME New York Harbor B100 fob

The differential basis for this series changes as below:

<b>PA code</b>	<b>Old differential basis</b>	<b>New differential basis</b>
PA0010073	-	Nymex Heating Oil

Legacy g-codes unaffected
