

Changes to Argus Freight effective 16 November 2012

Argus will be updating the code descriptions to the following assessments, which appear in the Argus Freight report and data feed with effect today.

The change subsequently affects the same codes that also appear in the following reports and data feeds:

Argus Crude (DLC data module)

Argus Russian Crude exports (DCISCR data module)

The updated code descriptions that appear in the DFR1 file of the DFR folder, on ftp.argusmedia.com :-

G-code	PA-code	Time stamp	Price type	Continuous forward	Old Description	New Description	Differential basis	Start date	End date	Unit	Category	Frequency
