Argus is discontinuing support for the legacy g-code data feed, the last data files in this format will be published for data date Friday 28 June 2013. Clients using legacy g-codes should contact their Argus account executive for advice and support in migrating to the current CSV data feeds using Argus PA-codes. A mapping of legacy g-codes to PA-codes is available. Argus can provide historical data in CSV format by individual codes or by data sets (all Argus International LPG for example). The Argus CSV format contains all the information of the old legacy series plus additional data to determine the price contract or pricing basis for prices expressed as differential data series.
