

Changes to Argus Steel Feedstocks effective 27 October 2014

Argus is moving the FTP data file creation time for the CSV files in the \DSteelFeedstocks folder forward from 21:00 East coast local time to 17:00 East coast local time (which moves with daylight savings changes).

The following will change in the documentation from this

Module	Path	FileName	Description	Folder	Time
DSteelFeedstocks	DATA\DSteelFeedstocks	dsteel	Argus Steel Feedstocks data	\DSteelFeedstocks	21:00:00 EST

To this

Module	Path	FileName	Description	Folder	Time
