

Changes to Argus International LPG, effective 05 January 2015

Argus is adding the midpoints (price type = 8) to the data feed for the propane swaps series below. These midpoints will exist in parallel with the existing high/low price types (1 & 2) until the end of March 2015. The high low price types will stop for these series after 31 March (see separate announcement). These series will be found in the dpgeurope and dpg data file in the \DLPG folder of ftp.argusmedia.com.
