

## Changes to Argus Crude effective 30 January 2015

Argus is adding two more forward weeks to the existing North Sea Crude CFD week series, extending the published range from 4 to 6 weeks. This change is being made in advance of a change in the way the Argus North Sea Dated assessment is constructed from 2 Feb 2015.

The following codes are being added to the DLC data files in the \DCRDEEU folder of the [ftp.argusmedia.com](http://ftp.argusmedia.com) server
