

Changes to Argus Crude Brent daily possibility curves effective 1 December 2020

In addition to the existing **Argus Brent month 1 to month 2 spread**, Argus is introducing **Argus Brent month 1 settlement** possibility curve and **Argus Brent month 2 settlement** possibility curve. The following PA codes will appear in the PCBrentDaily module in the /PCBRENTDAILY folder on ftp.argusmedia.com effective 1 December 2020. Each curve consists of 399 quantiles contained within a dedicated category. Each quantile holds an outright settlement price for forecasted day represented by forward period and forward tyear. The curves will be published daily no later than the 01:00 British Standard time on the forecasted day. Please refer to the latestCODES.csv (or V_CODE) metadata table, SPECIFICATION field, for the numeric value of the data point's quantile. Historical data from the Start date onwards is available upon request.

Please note that two new categories have been added to accommodate these curves.

PA-code	Time stamp	Price type	Continuous forward	Description	Start date	Unit	Category	Frequency
PA6006001	0	5	1	Argus Brent month 1 possibility curves Q0.0025 day	01-Jan-2016	USD/bl	->Crude->Crude Possibility Curves->Brent daily month 1 settlement curve	Daily
