

**Changes to Argus Crude WTI daily possibility curves effective 25 January 2021**

Argus is adding Overbought/Oversold levels to Argus WTI Crude daily possibility curves data module. The following PA codes will appear in the PCWTIDaily module in the /PCWTIDAILY folder on ftp.argusmedia.com effective 25 January 2021. Historical data from the Start date onwards is available upon request.

To accommodate those new series a new category has been introduced: ->Crude->Crude Possibility Curves->Overbought Oversold levels
